Add Subtitles to streaming video on the web!

WHAT ARE THE STEPS USED TO ADD SUBTITLES TO MY VIDEO?

First, our transcribers produce a word-for-word transcript of your video. Then we manually sync each line of script with the audio. We then create a subtitle file which is used by YouTube to display the words when you press the CC button. Same with Vimeo.

We can create an open-captioned video for videos used in-house. We can create an SCC/MCC caption file and embed it into your video for broadcast.

If the original audio is in English, we can create a caption file in **Spanish**.

Once video starts, click the CC button if you don't see the subtitles. Subtitles in English and **Spanish**. Defaults to English, use menu to change to Spanish.
